With the vital support of the local community and businesses, Baby Beat raises funds for babies, mums and mums-to-be cared for by the maternity units and the Neonatal Intensive Care Unit which are part of Lancashire Teaching Hospitals NHS Foundation Trust. It funds specialist equipment, patient services and comforts, clinical care, local research and training. Everything is additional and complementary to what the NHS provides and makes a real difference to families from across Lancashire and South Cumbria when they need it the most.
